

Report for Sudha N(44Y/F)

Tests asked Ft3, Ft4 + 4 Others

Test date 02 Sep 2024

Report status Complete Report

6^{STEP} quality control to ensure 100% report accuracy

Qualified and trained technicians

Temperature-controlled containers to store samples

Strict quality checks on samples before processing

Regular monitoring of lab analyzers by experts

Assured machine inspection on a daily basis

Verified reports by qualified pathologists

25+ Years of Trust & Experience

NABL Accredited Labs

100+ Crore Samples Processed

Name : SUDHA N(44Y/F)

 NEAR AMBEDKAR STATUE NEAR CENTRAL SILK
 BOARD BENGALURU

TEST NAME	TECHNOLOGY	VALUE	UNITS
25-OH VITAMIN D (TOTAL)	E.C.L.I.A	<u>29.4</u>	ng/mL

Bio. Ref. Interval. :-

Deficiency : <=20 ng/ml || Insufficiency : 21-29 ng/ml
 Sufficiency : >= 30 ng/ml || Toxicity : >100 ng/ml

Clinical Significance:

Vitamin D is a fat soluble vitamin that has been known to help the body absorb and retain calcium and phosphorous; both are critical for building bone health.

Decrease in vitamin D total levels indicate inadequate exposure of sunlight, dietary deficiency, nephrotic syndrome.

Increase in vitamin D total levels indicate Vitamin D intoxication.

Specifications: Precision: Intra assay (%CV):9.20%, Inter assay (%CV):8.50%

Kit Validation Reference : Holick M. Vitamin D the underappreciated D-Lightful hormone that is important for Skeletal and cellular health Curr Opin Endocrinol Diabetes 2002;9(1)87-98.

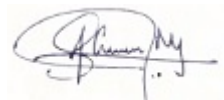

Please correlate with clinical conditions.

TEST NAME	TECHNOLOGY	VALUE	UNITS
EST. GLOMERULAR FILTRATION RATE (eGFR)	CALCULATED	109	mL/min/1.73 m2

Bio. Ref. Interval. :-

> = 90 : Normal
 60 - 89 : Mild Decrease
 45 - 59 : Mild to Moderate Decrease
 30 - 44 : Moderate to Severe Decrease
 15 - 29 : Severe Decrease

Clinical Significance

The normal serum creatinine reference interval does not necessarily reflect a normal GFR for a patient. Because mild and moderate kidney injury is poorly inferred from serum creatinine alone. Thus, it is recommended for clinical laboratories to routinely estimate glomerular filtration rate (eGFR), a "gold standard" measurement for assessment of renal function, and report the value when serum creatinine is measured for patients 18 and older, when appropriate and feasible. It cannot be measured easily in clinical practice, instead, GFR is estimated from equations using serum creatinine, age, race and sex. This provides easy to interpret information for the doctor and patient on the degree of renal impairment since it approximately equates to the percentage of kidney function remaining. Application of CKD-EPI equation together with the other diagnostic tools in renal medicine will further improve the detection and management of patients with CKD.

CONDITIONS OF REPORTING

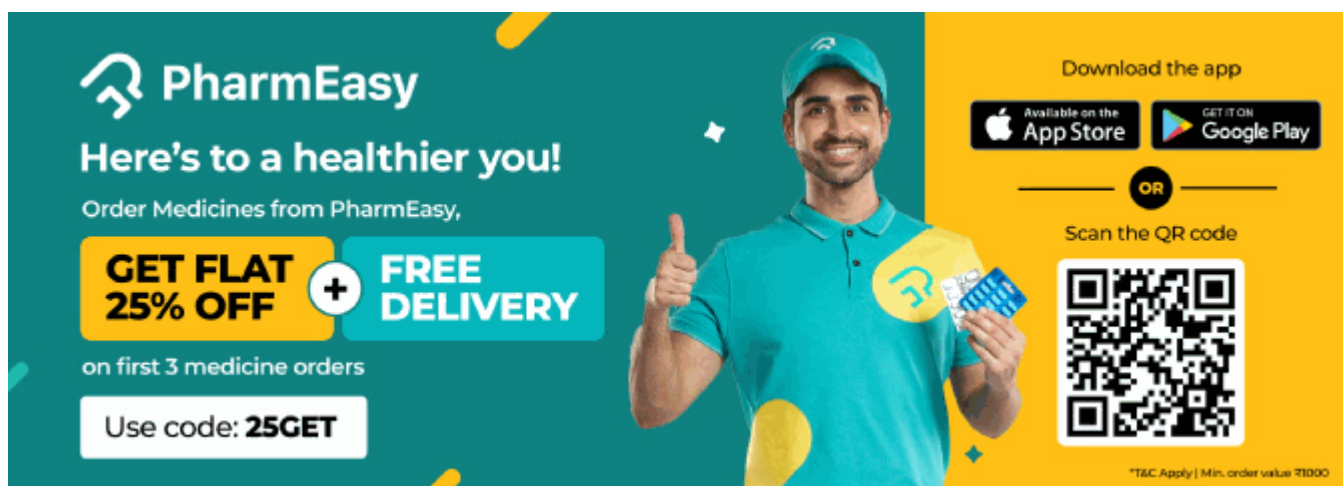

- ✓ The reported results are for information and interpretation of the referring doctor only.
- ✓ It is presumed that the tests performed on the specimen belong to the patient; named or identified.
- ✓ Results of tests may vary from laboratory to laboratory and also in some parameters from time to time for the same patient.
- ✓ Should the results indicate an unexpected abnormality, the same should be reconfirmed.
- ✓ Only such medical professionals who understand reporting units, reference ranges and limitations of technologies should interpret results.
- ✓ This report is not valid for medico-legal purpose.
- ✓ Docon Technologies Private Limited, Thyrocare Technologies Limited and its employees/representatives do not assume any liability, responsibility for any loss or damage that may be incurred by any person as a result of presuming the meaning or contents of the report.

EXPLANATIONS

- ✓ **Name** - The name is as declared by the client and recorded by the personnel who collected the specimen.
- ✓ **Ref.By** - The name of the doctor who has recommended testing as declared by the client.
- ✓ **Labcode** - This is the accession number in our laboratory and it helps us in archiving and retrieving the data.
- ✓ **Barcode** - This is the specimen identity number and it states that the results are for the specimen bearing the barcode (irrespective of the name).
- ✓ **SCT** - Specimen Collection Time - The time when specimen was collected as declared by the client.
- ✓ **SRT** - Specimen Receiving Time - This time when the specimen reached our laboratory.
- ✓ **RRT** - Report Releasing Time - The time when our pathologist has released the values for Reporting.
- ✓ **Reference Range** - Means the range of values in which 95% of the normal population would fall.

SUGGESTIONS

- ✓ Values out of reference range requires reconfirmation before starting any medical treatment.
- ✓ Retesting is needed if you suspect any quality shortcomings.
- ✓ For suggestions, complaints or feedback, write to us at grievance-office@docon.co.in or call us on 7022000900.

The advertisement banner for PharmEasy features a smiling male delivery person in a blue uniform and cap, holding a smartphone and giving a thumbs up. The background is split into teal and yellow sections. On the teal side, the PharmEasy logo is at the top, followed by the slogan 'Here's to a healthier you!' and 'Order Medicines from PharmEasy,'. Below this, a yellow box highlights 'GET FLAT 25% OFF' and a blue box highlights 'FREE DELIVERY', with a plus sign between them. A note specifies 'on first 3 medicine orders' and a code box shows 'Use code: 25GET'. On the yellow side, it says 'Download the app' with buttons for the App Store and Google Play, separated by an 'OR' button. Below is a QR code with the text 'Scan the QR code' and a small disclaimer at the bottom right: '*T&C Apply | Min. order value ₹1000'.
